**Cyclops is the ultimate gaming beast that Nox has created, an agressive enclosure to keep all the power you may need.**

Cyclops it's a mid-tower chassis, however it features some hot stuff which is commonly seen in hi-class cases.
Amongst other things, Cyclops main and newest feature is its DuoTurbo™ side cooling system, which allows the user to install 2x 120mm fans without screws needed, thanks to its clip-fixation devices.

Cyclops bears in mind the aesthetic sense of computing, and this is clearly shown when you take a look over it, with black interior, red LED, metal mesh in the front side, and the DuoTurbo™ side panel, Cyclop's look definitely deserves your attention.

Nevertheless, DuoTurbo™ it's not the only remarkable feature, Cyclops also has 7 expansion slots, long graphic cards support, HDAudio, USB 2.0 ports, 3x 5,25" exposed drive bays and much more...
